

Web Application UI Developer with 4* Years of Experience

Born in joyful city Surat, India, and currently working in Mumbai. I work for web - [mainly on Flash Platform and HTML 5](#) - and have a design tooth. I'm obsessed with the current development on the cloud-based, multi-client, social, real-time apps. I'm strong believer of pleasing User Experience - who always keens to make the users' engagement with applications better. I like to spend time on web in search of inspirations, with earbuds plugged in. While not on computers - I read books or cuddle with my Galaxy SII.

Here are my skills,

My education and career so far,

AUG 10 - NOW

[Senior Software Engineer](#) at Hurix Systems Pvt. Ltd.

Joined as a Software Engineer for Flex team, and promoted as a Senior Software Engineer, led the Flex team and HTML 5 team for a project and provided ttechnical support and mentorship. Currently working on HTML 5 based single-source, cross-platform mobile web application in conjunction with Flex-based counterpart.

AUG 08 - AUG 10

[Flash Platform Developer](#) at Avinashi Systems Pvt. Ltd.

Worked in FlashBrain Team as a Developer on Flash Platform (Flex + Flash). Have worked there on diverse projects including AIR Desktop Application with Hardware Integration to Cloud-based and Real-time Rich Internet Applications and Web Sites built on Adobe Flash Platform. Also served as a Technical Team Lead of whole Flash Platform team.

03 - 08

[First Class with Distinction B.E. Computer Science](#)

from Veer Narmad South Gujarat University with 76.83%. Have got the 1st rank in my college in Computer Engineering Department during the final year.

Key Projects I've worked upon,

[Dictera - Content Authoring, Management and Publishing Platform.](#)

@ dictera.com

One of the most comprehensive, flex-based content authoring, management and cross-platform publishing platform, with preloaded templates seamlessly integrated into digital content development workflow.

[SyncAcross - Everything up to date. Where ever you are.](#)

@ beta.syncacross.com

SyncAcross automatically synchronizes your contacts, calendars and tasks and keeps them up to date. No matter what application you are using or where you are located, your information is always current.

[Scrubly - Quick and Easy Address Book Cleanup!](#)

@ scrubly.com

Scrubly automatically removes duplicate contacts, merges similar contacts and resolves conflicting data inside your address book

[PQProbe - Detecting power problems was never this simple!](#)

@ enetranetsolutions.com

PQProbe is a three-phase power quality analyzer which adheres to international standards and it makes detecting power problems simple thereby reduce electrical operating costs, improve system reliability and efficiency.

And my Final Year Project (Submitted in partial fulfillment of B.E.)

[Mix d'Pix - Image Editing Online](#)

A Flash-based Online Image Editor RIA that facilitates user to perform basic and intermediate level of Image Editing functionality within their browser anytime, anywhere.
